ARENA OF GAMES & SPORTS

Playing various sports help the students learn life skills such as teamwork, leadership, accountability, patience, and self-confidence and prepare them to face life challenges. Students get a chance to work on their physical and mental abilities to achieve goals in their life. Sports develop physical as well as mental strength in students. Daily physical exercise is essential for

students because exercise not only helps students to stay healthy, but it also helps to improve their emotional fitness.

Sports should be a major part of the school curriculum because if students stay emotionally and physically healthy, they can easily focus

on their studies. Students have to participate in school sports to increase confidence, mental alertness and self esteem. Our school organised two sports activities for the students of Std. I & II. The following students grabbed 1st, 2nd & 3rd position in different activities/competition.
